The Skirt by Milou & Pilou

The Skirt by Milou & Pilou is our iconic piece; an easy-to-wear skirt that recreates that timeless classic from the early 40s: the wide skirt with braces. Because of its simplicity and easy-to-wearness, it is extremely inspiring and extremely useful for a great variety of occasions as it is very easy to match. It is amazing that one single item can offer so many possibilities.

Our original piece is made using classic blue denim and features wooden buttons and an elasticized waist, but we have developed some more models in colour and shape. They all share the same essence but with a twist or two. After all it is a quintessential item that matches perfectly with all sorts of styles.

LET THEM BE LITTLE!

Who is behind the whole thing?

Milou & Pilou is a vintage flavoured brand from Barcelona born in 2014 that offers comfortable, stylish clothing exclusively for girls aged 2 to 10.

The brand is based on the ideas of Mama Alicia, inspired by her own beautiful girls and happy childhood memories. With a little team of four enthusiastic people, the first collection FW14 was launched exclusively online and was immediately adopted by some of the most stylish online portals and media, especially in the UK, US and Australia.

Well-known by their twirling skirts and pinafores Milou & Pilou has developed The Skirt, a basic permanent collection of their iconic denim, cord and cotton skirts, available all year long. All the manufacturing is based in Barcelona, contributing to the ethical and local production using the most exclusive fabrics like denim and corduroy, washed and treated to get that vintage look, but also merino wool and soft cotton poplins. This also makes every piece so exclusive. Currently Milou & Pilou can be found in some selected stores.
